nsaidTalks™

UNFOLD SUCCESS FROM  
UNTOLD EXPERIENCES

## Welcome to UnsaidTalks!

We are a mentorship platform for engineering students, dedicated to connecting individuals with industry experts to guide them towards their dream careers.

### VISION:

To empower individuals to make career and life decisions with clarity, guiding them towards the future they envision.

### MISSION:

To help students and young industry professional secure their dream job by bridging the gap between them and industry experts.

### GOALS:

Provide guidance that fosters clear and confident decision-making. Support the journey towards achieving dream careers.

# UnsaidTalks **Mentorship** Program (UMP)

The UnsaidTalks Mentorship Program (UMP) is designed to provide 100% clarity on engineering career paths, interview processes, resume building, on-campus and off-campus placement strategies, and essential soft skills.

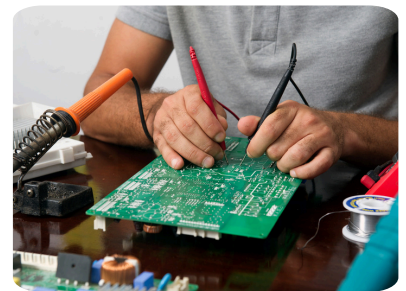

## Our Offerings

**MENTORSHIP PROGRAM  
(SOFTWARE ROLES)**

**MENTORSHIP PROGRAM  
(DATA & PRODUCT ROLES)**

**MENTORSHIP PROGRAM  
(ELECTRONICS ROLES)**

## Our Mentors

**ARUSH NAGPAL**  
Senior Software Engineer

**Loblaw**  
Digital

**AKSHIT ARORA**  
Senior Data Scientist

 **NVIDIA**

**DEEPAK SOOD**  
Senior AI Architect

**OPSTREE**

**LAKSHAY GUPTA**  
Senior Software Developer

**ORACLE**

**GIFTY MEHRA**  
HR Partner

**infoedge**

**MADHUR YADAV**  
Data Science Consultant

 **SAIVA**

**CANNON KARLA**  
Data Engineer

**Tp | Teleparty**

**and many more...!!**

## Key Highlights of the cohort

- **9 Industry Professionals** mentored students, providing clarity on the **What, Why, and How** of cracking interviews and building successful tech careers.
- **Offline & Online Sessions** covering key areas like tech interview strategies, soft skills, internships & projects, resume building, and tips for on-campus and off-campus placements.
- **Doubt-Clearing Sessions** at the end of every session to ensure complete understanding.
- **Exclusive Selection Process** to ensure motivated and mentor-able students joined the program.

## Challenges we catered

Challenges 	Solution 
Students were <b>overwhelmed by too many topics</b> .	Our structured curriculum helped students <b>focus on the most important areas for interviews</b> .
Students struggled to <b>present their solutions in interviews</b> .	We taught them <b>how to break down problems and communicate their thought process clearly</b> .
Students didn't see the <b>value in mastering DSA and problem-solving</b> .	Mentors explained not just <b>what to learn, but why it matters for long-term success</b> .
Students were more <b>interested in AI/ML than core CS topics</b> .	We connected <b>problem-solving to real-world applications</b> , sparking <b>excitement for the basics</b> .
Many students <b>had weak resumes</b> .	We guided them in <b>creating resumes that showcased their skills</b> , projects, and internships effectively.
Many students <b>lacked impactful projects and internships</b> .	We showed them <b>how to select, present, and discuss their projects to stand out in interviews</b> .

# SUCCESS STORY OF MANAV RACHNA UNIVERSITY

## Manav Rachna Engagement Model

### Introductory Session:

Top **80** students were invited to learn about the **UnsaidTalks Mentorship Program**

### Selection Process

Based on **application forms** and **1:1 interviews** with the UnsaidTalks team, **40** students were selected for the program.

### Program Highlights

- **Duration 2-month**
- **12 Sessions: 8 online and 4 offline**, covering technical **interview strategies**, **soft skills**, tips for getting **internships**, **building problem solving mindset**, **resume building**, and **placement strategies**.
- **Structured Tasks & Resources:** Shared on the LMS for continuous learning.
- **Doubt-Clearing Sessions:** Ensuring complete clarity.
- **Community Support:** WhatsApp-based support by industry professionals.

## Challenges we catered

## IMPACT

The program ended on 30th November with 75% batch placed by 20th December in startups (e.g., Qikfox, Argusoft) and enterprises (e.g., Accenture, Capgemini). The university, impressed, committed to recurring batches of 70 students from January 2025 onwards!

# COHORT FEEDBACK & IMPACT

*I want to express my heartfelt gratitude to **\*\*Unsaid Talks\*\*** for their incredible mentorship program. It has truly been a lucky charm for me. The mentors were not only highly insightful but also exceptionally friendly, providing invaluable guidance through their rich industry experience. As this was my first time participating in such a program, I couldn't have asked for a better experience. I am genuinely happy and deeply satisfied with the journey.*

**Vratika Jain**

*It is one of the best guidance programs for DSA and cracking placements. The resources you provided were very good and helped a lot. Every point they taught us was a very valuable key point.*

**Jami Kavyasree**

*Thanks for the session! I got motivated to start 'grind 75' as ServiceNow is going to host an online test in a few days/weeks.*

**Abhijeet Chaterjee**

*One of the best sessions on cracking SDE-1, so much to take from the session and quite helpful material shared on the unsaidtalks portal. I was unaware of preparing for low level design questions and got clarity on that also.*

**Kuldeep Tanwar**

*The resume part, specifically Gifty Ma'am's session, and the last session with Deepak Sir were amazing. He gave an awesome overview of what's important, and Gifty Ma'am cleared my doubts regarding ethics and contractual roles. Overall, it was a great program. Since we are in our final year, we already had the skills but needed short roadmaps, resume brush-ups, and resource material, which were very helpful. I especially loved the "10 Days Left" and "30 Days Left" interview guides by Deepak Sir.*

**Anjali Pandey**

## UnsaidTalks Mentorship Program (UMP) Pilot Phase

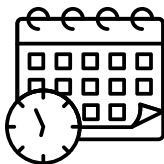

**Target Audience:**  
**3rd/4th Year engg. Students**

**Introductory Session:**  
**100-150 Students**

**Select students through  
application form and 1:1 interview:**  
**50-80 Students**

**Start Date: Jan'25**  
**Sessions on Weekends**  
**Duration: 2 months**

**MODE**

**Online Sessions: ~8**  
**On campus Offline sessions: ~4**
