Nikita Chand
INTERN

"UnsaidTalks Mentorship Program was really helpful. Initially, I wasn't aware of this level of help, but Mock Interview sessions, etc. Totally changed my game. After my 1st mock interview, I realized where I was lagging & on which topics I needed to focus more."

WHAT STUDENTS ARE SAYING

xeno

JIYA CHOURASIA
Business Analyst Intern

I'm very happy that I cracked an internship opportunity at Xeno. I was introduced to UnsaidTalks through my college & attended various useful sessions for my placements. I would like to Thank Raghav sir and my UnsaidTalks mentors, for their support & guidance without which I might not be able receive this opportunity today.

Razorpay

AAYUSH BANSAL
Software Development Engineer Intern

I recently got an internship offer from Razorpay! The UnsaidTalks mentorship program was a game-changer — especially my mentor, Raghav Sir, who kept me motivated and connected me with people inside the company. The mentorship sessions helped me fall in love with coding and gave me the confidence and structure to crack both the interview and the agent test. Truly grateful for the support!

A Journey to Success

*"The Wall of Love grows with every success story. Each student's journey reminds us why mentorship matters and why we do what we do at **UnsaidTalks**."*

PRATEEK SHUKLA

I recently got placed at Xeno as an SDE intern & was part of the UnsaidTalks Mentorship Program & later the L3 Program. These programs helped me immensely—especially the mentorship sessions focused on industry-level skills asked in interviews. I'm truly grateful to my mentor, who was the driving force behind my placement. I received guidance not just on technical aspects but also emotional support throughout the job hunt. The pre-interview calls with mentors really boosted my confidence. The best part of the program is the community, professionals from top companies directly guide you, offering industry insights you won't find elsewhere. I'd highly recommend this program to my peers!

I really enjoyed the way all the mentors explained everything in detail with their experience and also guiding us through on how to approach and the resources given were actually very great for me to prepare for the placements I asked many doubts during these sessions and even afterwards, and the best part was that the mentors always gave personalized guidance and made sure all the queries were properly addressed."
